SUMMARY

Game developer with 1.5 years of professional real-time 3D development at 3DVision and a 3-year game design and development program at Tiltan. Strong Unity and C# foundation: modular, data-driven systems, event-driven gameplay and UI.

EXPERIENCE

Unreal Developer — 3DVision

Tel Aviv · 02/2025 – Present · Real-time interactive apps for real-estate companies, built in Unreal Engine

- Develop and integrate interactive features based on client requirements across multiple projects
- Debug and optimize complex logic for stability and performance
- Implement custom UI elements and functionality tailored to client needs

PROJECTS

Isometric Story-Driven Game — Unity · 3-week hackathon · 2023

- Architected a modular, data-driven dialogue system with ScriptableObjects
- Built UI interactions and event-driven mechanics (e.g., an OnLetterTyped event) that drive the story

Boss Rush: Grid-Based Tactical Combat — Unity · Producer & Team Lead · 2023–2024

- Led a cross-functional team of programmers and artists for nine months, through delivery
- Oversaw the second programmer's code to keep it working and maintainable

FPS Stealth Level — Unreal Engine, C++ & Blueprints · 2024

- Programmed raycast shooting with recoil feedback and dynamic weapon pickups
- Developed enemy AI with detection logic and patrol routes for stealth gameplay
