

Roee Tal

Game Developer — Unity

roeetal17@gmail.com · 053-337-4350 · Israel · roeetal.com · LinkedIn · GitHub

SUMMARY

Game developer with 1.5 years of professional real-time 3D development at 3DVision and a 3-year game design and development program at Tiltan. Strong Unity and C# foundation: modular, data-driven systems, event-driven gameplay and UI.

EXPERIENCE

Unreal Developer — 3DVision 02/2025 – Present Tel Aviv

Real-time interactive apps for real-estate companies, built in Unreal Engine

- Develop and integrate interactive 3D architectural features across 4+ real-estate client projects in Unreal Engine 5
- Debug and optimize complex Blueprint logic, maintaining steady 60 FPS real-time rendering performance
- Implement custom interactive UI elements and camera controls tailored to client specifications

PROJECTS

Isometric Story-Driven Game — Unity · 3-week hackathon 11/2023

roeetal.com/projects/shards.html

- Built the full dialogue system in a 3-week hackathon: ScriptableObject sheets and pages, with page types via inheritance for branching answers and level changes
- Typewriter text raising per-letter, per-word and finish events that drive talking sounds and mouth animation

Boss Rush: Grid-Based Tactical Combat — Unity · Producer & Team Lead 12/2023 – 09/2024

roeetal.com/projects/boss-rush.html

- Led a cross-functional team of programmers and artists for 9 months, through delivery
- Oversaw the second programmer's code to keep it working and maintainable

FPS Stealth Level — Unreal Engine, C++ & Blueprints 06/2024 – 08/2024

roeetal.com/projects/infiltration.html

- Programmed responsive raycast weapon systems with recoil feedback, 3 pickup types, and an event-driven architecture driving sound and VFX
- Built patrolling enemy AI with detection meters across 2 stealth encounter zones in an 8-week C++ prototype

EDUCATION

Game Design and Development — Tiltan School of Design and Visual Communication 10/2021 – 10/2024 Haifa

Courses: C# 1–2, Unity Development 1–2, C++, Multiplayer, Unreal Development 1–2, Game Design 1–2, Game Production

SKILLS

Engines: Unity, Unreal Engine (Blueprints, C++)

Programming: C#, C++

Practices: OOP, design patterns, event-driven and data-driven design, debugging and optimization, Git, Agile

AI-assisted development: GitHub Copilot, OpenCode, ChatGPT, Gemini, local LLMs (Ollama, LM Studio), adopting Claude Code

LANGUAGES

Hebrew — Native · **English** — Full professional proficiency
