

# Roee Tal

## Game Developer — Unity

roeetal17@gmail.com · 053-337-4350 · Israel · roeetal.com · LinkedIn · GitHub

## SUMMARY

Game developer with 1.5 years of professional real-time 3D development at 3DVision and a 3-year game design and development program at Tiltan. Strong Unity and C# foundation: modular, data-driven systems, event-driven gameplay and UI.

## EXPERIENCE

**Unreal Developer —** 3DVision 02/2025 – Present Tel Aviv

*Real-time interactive apps for real-estate companies, built in Unreal Engine*

- ⠿Develop and integrate interactive 3D architectural features across 4+ real-estate client projects in Unreal Engine 5
- ⠿Debug and optimize complex Blueprint logic, maintaining steady 60 FPS real-time rendering performance
- ⠿Implement custom interactive UI elements and camera controls tailored to client specifications

## PROJECTS

**Isometric Story-Driven Game —** Unity · 3-week hackathon 11/2023

roeetal.com/projects/shards.html

- ⠿Built the full dialogue system in a 3-week hackathon: ScriptableObject sheets and pages, with page types via inheritance for branching answers and level changes
- ⠿Typewriter text raising per-letter, per-word and finish events that drive talking sounds and mouth animation

**Boss Rush: Grid-Based Tactical Combat —** Unity · Producer & Team Lead 12/2023 – 09/2024

roeetal.com/projects/boss-rush.html

- ⠿Led a cross-functional team of programmers and artists for 9 months, through delivery
- ⠿Oversaw the second programmer's code to keep it working and maintainable

**FPS Stealth Level —** Unreal Engine, C++ & Blueprints 06/2024 – 08/2024

roeetal.com/projects/infiltration.html

- ⠿Programmed responsive raycast weapon systems with recoil feedback, 3 pickup types, and an event-driven architecture driving sound and VFX
- ⠿Built patrolling enemy AI with detection meters across 2 stealth encounter zones in an 8-week C++ prototype

## EDUCATION

**Game Design and Development —** Tiltan School of Design and Visual Communication 10/2021 – 10/2024 Haifa

Courses: ⠿Programming & Engines: C# 1–2, Unity Development 1–2, Unreal Development 1–2, C++, Multiplayer, ⠿Game Design & Production: Game Design 1–2, Game Production

## SKILLS

**Engines**: Unity, Unreal Engine (Blueprints, C++)

**Programming**: C#, C++

**Practices**: OOP, design patterns, event-driven and data-driven design, debugging and optimization, Git, Agile

**AI-assisted development**: GitHub Copilot, OpenCode, ChatGPT, Gemini, local LLMs (Ollama, LM Studio), adopting Claude Code

## LANGUAGES

**Hebrew** — Native · **English** — Full professional proficiency
